Research Papers

Basal DNA damage in individual human lymphocytes with age
N.P. Singh, D.B. Danner, R.R. Tice, J.D. Pearson, L.J. Brant, C.H. Morrell and E.L. Schneider (U.S.A.) 1

Aging alters hepatic expression of insulin receptor and c-*jun* mRNA in the mouse
P.L. Mote, J.M. Grizzle, R.L. Walford and S.R. Spindler (U.S.A.) 7

Micronucleated lymphocytes in people occupationally exposed to potential environmental contaminants: the age effect
L. Migliore, M. Parrini, I. Sbrana, C. Biagini, A. Battaglia and N. Loprieno (Italy) 13

Heterogeneity in Alzheimer's disease: evidence from cellular radiosensitivity and complementation of this phenotype
P. Chen, C. Kidson and M. Lavin (Australia) 21

Biochemical mechanisms by which reutilization of DNA 5-methylcytosine is prevented in human cells
J.A. Vilpo and L.M. Vilpo (Finland) 29

The formation of heart DNA adducts in F344 rats following dietary administration of heterocyclic amines
E. Övervik, M. Ochiai, M. Hirose, T. Sugimura and M. Nagao (Japan) 37

In vivo loss of telomeric repeats with age in humans
J. Lindsey, N.I. McGill, L.A. Lindsey, D.K. Green and H.J. Cooke (U.K.) 45

The effects of spermatozoal irradiation with X-rays on chromosome abnormalities and on development of mouse zygotes after delayed fertilization
M.L. Boerjan and L.A. Saris (The Netherlands) 49

Reduced DNA repair in progeria cells and effects of γ-ray irradiation on UV-induced unscheduled DNA synthesis in normal and progeria cells
S. Wang, C. Nishigori, T. Yagi and H. Takebe (Japan) 59

Special Issue

Cellular Ageing

edited by S.I.S. Rattan

Research Papers

Cellular ageing: reflections and projections
S.I.S. Rattan (Denmark) 67

Aging under glass
L. Hayflick (U.S.A.) 69

Chromatin reorganization during senescence of proliferating cells
A. Macieira-Coelho (France) 81

Changes in gene expression and DNA methylation in adrenocortical cells senescing in culture
P.J. Hornsby, L. Yang, S.G. Raju and C.Y. Cheng (U.S.A.) 105

Protein synthesis and the components of protein synthetic machinery during cellular ageing
S.I.S. Rattan (Denmark) 115

Cellular ageing related proteins secreted by human fibroblasts
C.S. Eleftheriou, N.B. Trakas and S.J. Tzartos (Greece) 127

Actin cytoskeletal network in aging and cancer
K.M.K. Rao and H.J. Cohen (U.S.A.) 139

Involvement of microtubules in modifications associated with cellular aging
M. Raes (Belgium) 149

Changes in the cell surface of human diploid fibroblasts during cellular aging
K. Yamamoto and M. Yamamoto (Japan) 169

Oxidants and antioxidants in proliferative senescence
M. Poot (Germany) 177

Homoeostatic imbalance during cellular ageing: altered responsiveness
A. Derventzi and S.I.S. Rattan (Denmark) 191
Ageing in the chick lens: in vitro studies
R.M. Clayton, C.E. Patek, M.W. Head and J. Cuthbert (U.K.) 203
Cellular ageing of Alzheimer's disease and Down syndrome cells in culture
G. Carmeliet, G. David and J.-J. Cassiman (Belgium) 221
Differentiation of primary and secondary fibroblasts in cell culture systems
K. Bayreuther, P.I. Francz, J. Gogol, C. Hapke, M. Maier and H.-G. Meinrath (Germany) 233
Protein markers for cellular mortality and immortality
R. Wadhwa, S.C. Kaul, Y. Ikawa and Y. Sugimoto (Japan) 243
Senescence and the accumulation of abnormal proteins
R.F. Rosenberger (U.K.) 255
Negative growth effectors and cellular senescence
A.L. Spiering and J.R. Smith (U.S.A.) 263
Telomere loss: mitotic clock or genetic time bomb?
C.B. Harley (Canada) 271
DNA methylation and cellular ageing
J. Catania and D.S. Fairweather (U.K.) 283
A re-examination of the effects of ionizing radiation on lifespan and transformation of human diploid fibroblasts
R. Holliday (U.K., Australia) 295
Molecular genetic approaches to the study of cellular senescence
Y. Ning and O.M. Pereira-Smith (U.S.A.) 303
Somatic mutations and cellular aging: two-dimensional DNA typing of rat fibroblast clones
P.E. Slagboom, E. Mullaart, S. Droog and J. Vijg (Netherlands) 311
Genetic basis of limited cell proliferation
T.B.L. Kirkwood (U.K.) 323
